

Guide to using the World ME Day logos and graphics

The World ME Alliance is making these graphics freely available to anyone to use, on the basis that they do not denigrate the brand or otherwise bring the brand into disrepute.

By making these graphics freely available and allowing individuals and organisations to use them, we aim to enable mass participation in World ME Day, and create unity around May 12th to increase its impact.

Please consider adding the World ME Day logo to events you are planning that will raise awareness around May 12th, and do let us know what you are doing by emailing info@worldmealliance.org so that we can promote your actions and events.

Use the logo to show you are part of a mass movement, and emphasise how connected our ME community is across the globe.

We are grateful for the respect you will give those with ME and this initiative when using these resources.

Thank you,
The team at the World ME Alliance
